

Pulse-1600

3/8" I.D. PULSATION DAMPENING HOSE

PULSE-1600 pulsation dampening hose is a premium quality product designed specifically for the pressure washing industry, to reduce impulse created by high pressure piston pumps.

PULSE-1600 in many cases will eliminate the need for expensive gas accumulators.

Specifications

Working Pressure: 1,600 PSI

Minimum Burst Pressure: 6,400 PSI

Safety Factor: 4:1

Working Temperature: -40°F to 275°F

Volumetric Expansion: 12 cc/ft.*

Construction:

Tube -- Seamless black synthetic rubber, oil and heat resistant.

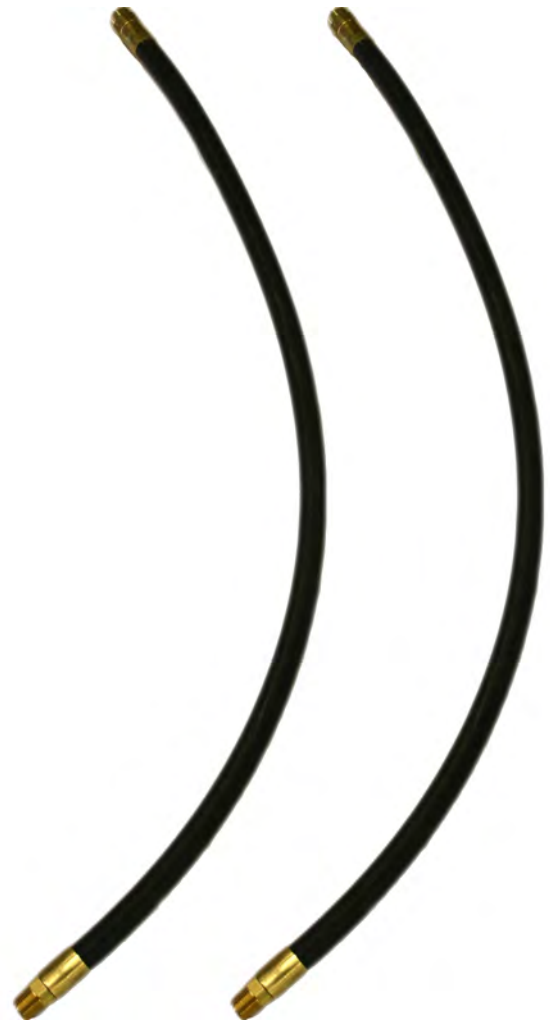

Reinforcement -- Nylon braid.

Cover -- Specifically compounded to resist weather, heat and detergents.

Weight per 100 feet: 13.72 lbs.

Couplings: Permanently attached standard SAE couplings per customer needs including plugs

*Approximate expansion rated at 2,000 PSI
